

Dear Local Resident,

At the Murrayfield Community Council meeting held on November 5th 2019, the subject of overhanging and overgrown trees, bushes and hedges in the area was raised by many people. This is affecting pedestrians walking on the pavement, it is creating a health and safety issue and may also be affecting neighbours. We kindly request you to cut back your overhanging/over grown vegetation which is intruding on the land outside of your boundary.

If you are elderly or disabled, Edinburgh City Council do provide a "Garden Aid" service to assist with trimming hedges and cutting grass, there is a cost and you can find out more information by going to www.edinburgh.gov.uk and searching for garden aid. Other sources of help can be found in the local Grapevine magazine or by doing a quick look online.

If you have any questions please do contact us via our Facebook or Twitter pages or email secretary@murrayfieldcc.org.uk

Best Wishes
